## **FOH SYSTEM - CONSOLE**

We will bring our own FOH mixing console, the ALLEN & HEATH dLive C1500, with a CDM32 MixRack for both FOH and monitors. Please ensure your PA amplifiers are set to full power and avoid using limiters. If the sound is too loud, please communicate with the engineer.

We will bring:

- Allen & Heath C1500 with CDM32 MixRack (sidestage located near the monitor console);
- 1x DX168 I/O extenders (backline I/O);
- Our own microphones

We will need:

- A 2m by 2m space for the mixing console. We need no table
- One power connection at FOH and at least four at monitor side;
- 2x CAT6 STP or higher **direct** network cables from FOH to stage. We will bring our own for the on-stage I/O extender;
- 2x Large boom mic stands for overheads.

## **WIRELESS DEVICES**

**WE BRING:**

|                                                                              |                                                                                                        |

## **BACKLINE**

WE BRING:

### **GUITARS & BASS:**

2x Custom Cathedral 6x12 guitar cabinets (8 ohm)  
1x Custom Cathedral 6x10 2x12 bass cabinet (4 ohm)  
2x Custom Cathedral 'dummy' guitar cabinets  
1x Custom Cathedral 'dummy' bass cabinet

### **DRUMS : Tama Rockstar-Pro drum kit + Tama hardware**

#### **DRUM SHELLS:**

1x snare drum 14"  
2x rack tom 12" & 13" + 1x floor tom 16"  
1x kick drum 22"

#### **HARDWARE:**

1x snare stand  
1x double tom stand  
4x cymbal boom stand  
1x cymbal boom clamp  
1x hi-hat stand  
1x Tama Speed Cobra 910 double kick pedals

**CYMBALS:** Paiste 2002 cymbals: 2x crash cymbals (18" & 20"), 1x china cymbal (18"), 1x splash cymbal (10"), 1x ride cymbal (20"), 1x hi-hat (14")

## **LIGHTNING**

### **LIGHTING INSTRUCTIONS**

During most of our live performance **we require a decent amount of front light to provide enough visibility for us to play our instruments.** During breaks the front light can be reduced.

Our music contains a lot of tempo changes, which can shift the pace between mid-tempo and high-tempo. We love an energetic and creative light show that accommodates these changes in pace.

We often assign a main color to each song in our setlist. We can provide a setlist with the intended main colors beforehand if you contact us by email. These instructions are merely intended as a guideline, feel free to be creative.

### **WE BRING:**

**4x American DJ Fog Fury Jett Pro smoke machines.** Each machine requires 1550W, so please provide 2x Schuko CEE 7/4 sockets (both on separate 20 A circuits, one on each side of the stage)

**1x backdrop (3x5m or 6x8m).** The center is marked with duct tape for easy placement.

### **EQUIPMENT PROVIDED BY THE ORGANIZATION**

- 2x Schuko CEE 7/4 sockets (both on separate 20 A circuits, one on each side of the stage);
- A professional lighting rig.

Please contact us if there are questions or problems prior to the show.

## **SOUNDCHECK & CHANGEOVER**

Please provide a **designated area** of at least 4 square meters, **free of any equipment or obstacles**, adjacent to or behind the stage for us to set up our equipment and prepare for the performance.

Thank you. ~~It is not necessary to bring your own backline; we have an excellent backline of our own.~~

~~If you choose to use your own backline, it will be set up backstage beforehand, but the 20-minute changeover time remains the same.~~

When using our own backline we need a **changeover of at least 30 minutes**. When using the organization's backline we need **at least 20 minutes**.

If possible, we always prefer to soundcheck before the doors open. If that's not possible, we need at least 10 minutes (not including the changeover time) to do a line-check prior to the show. ~~We will not perform until we are happy about the sound on and off stage.~~

## **PARKING REQUIREMENTS**

Carnation will travel with **two vehicles**. **The organization has to provide two safe parking spaces as close to the venue as possible.** If these parking spaces are not free of charge, the organization will have to pay the parking fees.

If the parking spaces are more than 15 meters away from the venue, the organization has to accommodate a temporary space for one vehicle in front of the venue for an efficient load-out.

Our management will communicate all license plates prior to the show if necessary.

## **BAND INFORMATION**

**Carnation will travel with 8 people. All band and crew members should have stage & backstage access. The hospitality rider requirements mentioned below include our crew.**

Additionally, Carnation will need a **guestlist of 5 people** who will be granted free access to the venue.

~~I need the names by May 15, 2027, at the latest.~~

### **Band:**

Simon Duson (vocals)  
Bert Vervoort (guitar)  
Jonathan Verstrepen (guitar)  
Yarne Heylen (bass)  
Vincent Verstrepen (drums)

### **Crew:**

Pieter Roziers (tour manager)  
Pieter Nyckees (FOH)  
Elise Vos (merchandiser/driver)

The backstage area is shared with all other bands.  
There is an additional, separate preparation area directly behind the stage.

## **BACKSTAGE**

A private, comfortable backstage area with seating, a mirror, and proper lighting for make-up.

Showers must be available after the show. **showers in hotel**

**Food, snacks** and **drinks** have to be available in the backstage area. For more details please take note of the information below.

## **FOOD & DRINKS**

All band and crew members require a **hot quality dinner**.

### **FOOD**

- Healthy, nutritional meals **before the show**, preferably without cheese. **One person is allergic to nuts**
- **Aftershow food** for all band and crew members. This could be pizza, sandwiches, fries,.
- We love Hard-boiled eggs
- Some apples, bananas, Oranges, and other fruits
- ~~Smoothies~~
- Chips
- Some cookies

### **DRINKS**

- An unlimited supply of water in plastic bottles, for both on and off stage
- 24 x Sparkling water
- 12 - ~~24~~ x Coca-Cola
- 6 x ~~Nalu~~ energy drinks
- 1 x Bottle of Captain Morgan rum or Jameson whisky
- 24 x Beers
- Coffee

## **OTHER NEEDS & SUPPLIES**

We will need 5 big towels + 5 small towels. We advise the usage of dark towels instead of white. These will be easier to wash afterwards.

## **MERCHANDISE**

The organization must reserve and provide a well-lit, clearly visible merchandise table specifically for us. **The table must be at least two meters long**, with two chairs and at least two meters of wall space behind it. One Schuko power socket is required at the table for our lighting setup.

**Erik from Party San Open Air handles the merchandise.**  
**You need to get in touch with him yourselves. --> [eastwoodms@gmx.de](mailto:eastwoodms@gmx.de)**
